

# Fraction of the Day

1

**Simplify It!**  
Is it simplified?  
Yes or No  
If no, simplify it:

**Division Problem Representation**  
\_\_\_\_ ÷ \_\_\_\_

Is it closer to 0, 1/2 or 1?  
Plot it on the number line.

**Add It!**  
 $\frac{2}{6} + \frac{3}{6} =$

**Subtract It!**  
 $\frac{2}{6} - \frac{1}{6} =$

**Multiply It!**  
 $\frac{2}{6} \times \frac{3}{4} =$

**Divide It!**

$3 \div \frac{2}{6} =$
